Sharon's version of this Drawstring Bag

For Sanitary Kits

Bag:
Cut WOF a 14" strip. Then cut that strip 12".
You will get 3 bags from the 14" strip.

Casing:
From the small piece left, cut 5 ½" x 14".
Press the edges of the 14" sides to the wrong side.
Zig zag those raw edges.
Cut into 2" x 5 ½" pieces...you need 2 of these per bag. You should have 6 casing pieces from the 14" so enough to do the 3 bags.

First, pin the casing pieces along the 14" edge centering them as shown on the front page, raw edges together and sew ¼" across the entire 14". Zig zag the edges.

Press the casing and bag making sure the fabric is turned under at the stitching line.

Top stitch just below the seam on the right side of the fabric.

Fold the bag in half as shown on the front and sew ¼" seam down the side and across the bottom of the bag. Zig zag the raw edges. Turn, poke out corners, and press.

Ribbon:
I use two 18" length of ribbon for the drawstrings as shown on the front.
**Drawstring Bag**

Cut 1 - 14” x 16” fabric for bag
Cut 2 - 2” x 7” fabric for casing
Cut 2 pieces of ribbon 22” long for ties

Fold fabric for bag in half, fronts facing, and sew ¼ inch seam down side and across bottom. Zig Zag sewn edges.

Turn 2” edges of casing in ¼ “ and top stitch. Do this to both pieces. Fold in half, insides facing, and press.

Center casings on bag and zig zag raw edges. Turning seam to inside, press and top stitch. Put ribbon in casing for drawstring.
